Memorandum of Agreement

When more than one NFIB member is involved in a Systems/Network, a Memorandum of Agreement must be executed. This memorandum must, at a minimum, identify the Principal Accreditation Authority or, in concatenated systems/networks, the Joint Accreditation Authority and the Principal Joint Accreditation Authority. It must identify the level(s) of classification of data being processed on the system/network. And it must identify any operational restrictions which are placed on the system/network. This memorandum will be updated whenever a significant change is made to any of the above.

Accreditation:

Intelligence All systems/networks which process Classified ^{*Foreign*} ~~Information~~ Information ~~must~~ must be accredited. The accreditation statement must be supported by complete documentation which fully describes the technical assessments of the system/network, the vulnerabilities, risks, and countermeasures associated with the system/network and the results of the security tests performed on the system/network.

procedures for waivers -
